

AN AI INTERPRETER WITH PERSONALITY

REAL-TIME MULTILINGUAL COMMUNICATION MADE SIMPLE

WHAT IS THE AI PATIENT INTERPRETER?

AI Patient Interpreter powered by PRSONAS™ is a multilingual, avatar-guided solution designed to eliminate language barriers in healthcare settings. Patients can speak in their native language and receive real-time interpretation into another language, guided by a lifelike AI avatar with natural gestures and expressions that foster trust and clarity.

WHAT DOES IT DO?

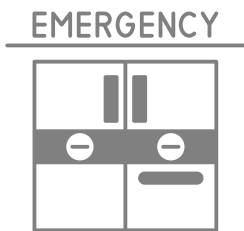

- ✓ **IMPROVES PATIENT SAFETY**
Accurate interpretation reduces the risk of misdiagnosis, medication errors, and misunderstandings
- ✓ **ENHANCES THE PATIENT EXPERIENCE**
Empathetic avatars make patients feel heard, understood, and respected—regardless of language
- ✓ **PROVIDES 24/7 ACCESSIBILITY**
No need to schedule interpreters; the AI is always ready to assist
- ✓ **REDUCES COSTS & RELIANCE ON HUMAN INTERPRETERS**
Delivers consistent, scalable language support while significantly lowering operational costs
- ✓ **DEPLOYABLE AND SCALABLE ACROSS FACILITIES**
Grows with your organization, ensuring consistent multilingual support wherever patients need it
- ✓ **SECURE, ACCESSIBLE & REGULATION READY**
Designed to support regulatory requirements for data privacy and accessibility features
